

Reservoir Liners

Lining Systems for
Irrigation Reservoirs

**GEOSYNTHETIC
TECHNOLOGY LTD**

- **GEOSYNTHETIC TECHNOLOGY LTD** is the UK market leader for the Design, Supply and Installation of Reservoir Liners.
- We have a 20+ year track record in supplying and installing geomembrane lining systems.
- The Company works nationally (and overseas).
- We offer a wide range of high performance liner products manufactured from Polyethylene (PE) and Polypropylene (PP), as well as specific formulations to meet every requirement.
- All installations are covered by 20 year (minimum term) Warranties, and are installed in full compliance with our ISO 9001 Quality Assured Operating Procedures.
- Projects include lining systems for new reservoirs, and liners for the sealing of existing reservoirs that leak.
- Where required, we can introduce to you a suitable Contractor who can design and build the reservoir, subcontracting the liner installation to our company.
- No Charge is made for site visits to discuss/view your potential project.
- Where required, we can supply prefabricated liner panels for smaller projects, for installation by the Client.
- Other applications include Slurry Pit Liners, Pond Liners and Lake Liners.
